

Key Words

3		colon cancer	63	extrahepatic portal vein obstruction	
3D Volume Analyzer		combined vascular resection	262		825
A		common bile duct stone	750	F	
aberrant bile duct		common bile duct varices	242	field carcinogenesis	729
accessory bile duct		complication	611	FlushKnife N-S	603
acute cholecystitis		comprehensive genomic profiling test	202	follicular cholangitis	854
adenomyomatosis		congenital biliary dilatation	101, 635, 849	G	
adenosquamous carcinoma		conversion surgery	660, 785	gallbladder	776
Alagille syndrome		cystic duct maljunction	248	gallbladder cancer	70, 94, 268, 785, 799, 833
ampullary tumor		cystic lymph node metastasis	833	gallbladder carcinoma	743
amputation neuroma		D		gallbladder drainage	776
amylase in bile		distal bile duct cancer	195, 635	gallbladder metastasis	709
anterior bile duct		durvalumab	660	gallbladder polyp	219
authorship		dysbiosis	18	gallbladder torsion	91
autologous vein graft		E		gallbladder wall thickening	722
B		ECG	55	gangrenous cholecystitis	77
bile duct		elderly	91	GCD	660
bile duct cancer		elderly patients aged 90 years or older	750	genomic medicine	202
bile duct cannulation		endoscopic lithotomy	41	giardia	683
bile duct metastasis		endoscopic papillectomy	611	giardia lamblia	683
bile duct tumor		endoscopic retrograde cholangiopancreatography (ERCP)	248	gut microbiota	18
biliary cancer		endoscopic submucosal dissection	611	H	
biliary dilation		endoscopic treatment	750	hemobilia	70
biliary hamartoma		endoscopic ultrasound	675, 776	hepatectomy	48, 94
biliary tract cancer		endoscopic ultrasound-guided biliary drainage	210	hepatic artery aneurysm	70
biliary varices		ERCP	188, 242, 603, 733, 839	hepatic cyst	689
C		ESCR	714	hepatic mass	859
cancer-associated stroke		essential thrombocythemia	825	hepatic peribiliary cysts	733
cancer-associated thrombosis		ethical misconduct	178	hepatocellular carcinoma	810, 859
carcinogenesis		EUS	714, 839	hepatopancreatoduodenectomy	172
cardio biliary reflex		EUS-BD	714, 839	high confluence of pancreaticobiliary ducts	799
cholangiocarcinoma		EUS-HGS	714	hilar cholangiocarcinoma	854
cholangioscopy		EUS-related procedures	210	hyperplasia	722
cholangitis		EUS (endoscopic ultrasonography)	18	I	
cholecystectomy				IDUS (intraductal ultrasonography)	18
cholecystitis				ileal bile acid transporter inhibitor	620
choledochoduodenostomy					
cholestasis					
cholesterol polyp					
clinical significance					

iliac vein graft	262	metronidazole	683	prognosis	48
immune checkpoint inhibitor	163	microsatellite instability-high	85	publication ethics	178
immunohistochemistry	644	minimally invasive cancer	109	R	
indication for resection	172	minimally invasive surgery	768, 849	recurrence	785
indocyanine green (ICG) fluorescence		mucinous carcinoma	228	research activities	178
imaging	248	mucosal line (ML)	268	research ethics	178
infectious cyst	689	multifocal occurrence	817	resection	785
innermost hyperechoic layer (IHL)		N		resident microbiota	18
	268	neoadjuvant chemotherapy	195	residual cystic duct carcinoma	228
inside stent	759	O		retro-pancreatic head lymph node	
interventional EUS	188, 776	obstructive jaundice	689		833
Interventional EUS	714	P		robotic surgery	768
intracholecystic papillary neoplasm		pancreatic and bile juice cytology		S	
	219, 743		683	safety	210
intraductal growth	258	pancreatic cancer	683	SEMS	242
intraductal papillary neoplasm of bile		pancreatic head cancer	195	standardization of terminology	210
duct	697, 817	pancreatic invasion	195	stent graft insertion	629
intraductal papillary neoplasm of the		pancreaticobiliary maljunction	101	surgical resection	743
bile duct (IPNB)	63, 236	Pancreaticobiliary maljunction	722	surgically altered anatomy	188
intrahepatic cholangiocarcinoma	667	pancreaticobiliary maljunction		symptomatology	101
intrahepatic gallbladder	248		729, 799, 849	T	
IPMN	651	pancreaticoduodenectomy	768	T1a (M)	611
IPNB	109, 258, 651, 697, 817	papillary bile duct cancer	109	TOKYO criteria 2024	210
irAE	163	pathophysiology	101	transarterial embolization	629
J		PD-L1	660	tumor thrombus	258
JAK2 gene mutation	825	pembrolizumab	85	U	
L		perihilar cholangiocarcinoma		unresectable biliary tract cancer	163
laparoscopic cholecystectomy			94, 172, 759	V	
	41, 77, 228, 702	peroral cholangioscopy	854	von Meyenburg complex	810
laparoscopic surgery	236	polycystic liver disease	689	X	
large cell neuroendocrine carcinoma		portal biliopathy	825	xanthogranulomatous cholangitis	859
	709	portal vein reconstruction	94	xanthogranulomatous cholecystitis	
left subphrenic abscess	77	portal vein resection	262		859
liquid biopsy	202	portal vein thrombosis	242	xanthogranulomatous cholecystitis	
liver cyst	697	portal venous stenting	629	(XGC)	268
liver transplantation	620	post-operative hemorrhage	629	xanthogranulomatous inflammation	
locally advanced biliary tract cancer		postoperative follow-up	41		859
	94	postoperative liver metastasis	48	X	
lung cancer	709	precision medicine	202		
M		precut	603		
magnetic resonance		preoperative biliary drainage	759		
cholangiopancreatography (MRCP)		preoperative diagnosis	172, 791		
	248	primary sclerosing cholangitis	620
