

Key Words

| A | | cholangiocarcinoma | 31, 712, 717 | EPLBD | 106 |
|--------------------------------|----------------------------|--|--------------|----------------------------------|------------------------|
| abdominal ultrasonography | 215 | cholangiography | 263 | ERCP | 11, 113, 293, 725, 910 |
| acute cholangitis | 68, 146, 254 | cholangiolocellular carcinoma | 133 | EST | 106 |
| acute cholecystitis | 100, 163, 287, 704, 823 | cholecystectomy | 215, 243 | EUS | 21, 233, 725 |
| adenosquamous carcinoma | 263 | cholelithiasis | 243 | EUS-BD | 891 |
| amiodarone | 254 | cholestasis | 68 | EUS-FNA | 21, 233, 785 |
| ampullary adenoma | 761 | clinical guideline | 836 | EUS-guided biliary drainage | |
| ampullary carcinoma | 59 | clip | 271 | | 725, 891 |
| ampullary tumor | 853 | congenital biliary dilatation | 717 | EUS-guided biliary drainage | |
| anatomical variant | 53 | congenital biliary tract dilation | 249 | EUS-guided-biliary drainage | 816 |
| autoimmune pancreatitis | 31 | convex EUS | 785 | extrahepatic bile duct | 307 |
| | | CT | 68, 320 | extrahepatic bile duct carcinoma | 263 |
| | | cystic artery pseudoaneurysm | 899 | extrahepatic bile duct diameter | 215 |
| B | | D | | F | |
| bail out surgery | 163 | diagnostic imaging | 320 | fibrous polyp | 861 |
| benign tumor | 877 | differential diagnosis | 307 | fibrous polyp of the gallbladder | 326 |
| bile | 823 | difficult bile duct cannulation | 75 | G | |
| bile duct | 53, 210, 279, 320, 883 | difficult laparoscopic cholecystectomy | | gall bladder | 320 |
| Bile duct | 725 | | 704 | gallbladder | 307, 861 |
| bile duct cancer | 120 | distal bile duct | 877 | gallbladder alone | 126 |
| bile duct dilatation | 215 | distal biliary obstruction | 40 | gallbladder cancer | 233, 243, 861 |
| bile duct stenosis | 877 | distal cholangiocarcinoma | 139 | gallbladder carcinoma | 915 |
| bile duct stones | 11, 21 | double cancer in the biliary tract | | gallbladder hemorrhage | 293 |
| biliary drainage | 21, 40, 146 | | 120 | gallbladder lesions | 233 |
| biliary injury | 891 | drainage | 831 | gallbladder metastasis | 126 |
| biliary neoplasm | 836 | duodenal perforation | 271 | gallbladder perforation | 155 |
| biliary plastic stent | 767 | E | | gallbladder tumor | 751 |
| biliary stent | 271 | early gallbladder cancer | 326 | gallstone | 155 |
| biliary stenting | 40 | emphysematous cholecystitis | 155 | gallstone disease | 11 |
| Biliary stricture | 816 | endoscopic papillary large balloon | | gallstone pancreatitis | 870 |
| biliary strictures | 21 | dilation | 106, 113 | GIST | 743 |
| biliary system | 785 | endoscopic papillectomy | 761 | granular cell tumor | 877 |
| biliary tract | 877 | endoscopic radiofrequency ablation | | guideline | 40, 113, 717 |
| biliary tract cancer | 47, 53, 836 | | 712 | guidelines | 163 |
| biliary tract infection | 146 | endoscopic retrograde | | H | |
| | | cholangiopancreatography | 75, 271 | hemobilia | 776 |
| C | | endoscopic sphincterotomy | 106 | hemoperitoneum | 899 |
| cancer of the papilla of Vater | 120 | endoscopic treatment | 146 | hepatic artery | 53 |
| cannulation | 910 | endoscopic ultrasonography | 326 | hepatic artery resection and | |
| carcinogenesis | 761 | endoscopic ultrasound (EUS) | | reconstruction | 223 |
| carcinosarcoma | 279 | | 168, 816 | hepatocellular carcinoma | 751 |
| ceftriaxone | 870 | | | | |
| chemotherapy | 47, 776 | epidemiology | 243 | | |

| | | | | |
|--|-----------------------------|--|----------|--|
| hepatoid adenocarcinoma | 751 | molecular targeted agent | 47 | |
| huge tumor | 133 | MRI | 68, 320 | |
| | | mucinous adenocarcinoma | 139 | R |
| I | | N | | |
| IgG4 | 210 | NET | 743 | radial EUS |
| IgG4-related sclerosing cholangitis | 31 | neuroendocrine carcinoma | 915 | renal cell carcinoma |
| IgG4-related sclerosing cholangitis (IgG4-SC) | 168 | neuroendocrine tumor | 883 | resection |
| image diagnosis | 59 | neurofibromatosis type 1 | 743 | right ligamentum teres hepatis |
| imaging | 791 | O | | risk factor |
| immunotherapy | 47 | obstructive jaundice | 254, 293 | S |
| inflammatory polyp | 861 | P | | sclerosing cholangitis |
| injury of the hepatic vein | 733 | pancreatic guidewire technique | 75 | screening |
| interventional EUS | 816 | pancreaticobiliary maljunction | | selective bile duct cannulation |
| intra-ampullary papillary-tubular neoplasm (IAPN) | 853 | pancreaticobiliary maljunction | | septic pulmonary embolism |
| intracystic hemorrhage | 791 | pancreaticoduodenectomy | 59 | shock |
| intraductal papillary neoplasm of the bile duct (IPNB) | 791 | papilla of Vater | 853 | site-specific subclassification |
| intraductal ultrasonography (IDUS) | 168 | pathology | 853 | smell |
| intrahepatic stone | 68 | perihilar biliary obstruction | 40 | somatostatin receptor scintigraphy |
| intraoperative cholangiography | 249 | perihilar cholangiocarcinoma | 53, 223 | 743 |
| J | | perineural invasion | 139 | stent-stone complex |
| Japan Gastroenterological Endoscopy Society (JGES) | 113 | plastic stent | 271 | steroid |
| L | | portal vein resection and reconstruction | 223 | steroid therapy |
| laparoscopic cholecystectomy | 91, 163, 287, 704, 831, 899 | postoperative bile leakage | 831 | stricture of the hilar bile duct lesions |
| local excision | 59 | precision medicine | 47 | 168 |
| local recurrence | 761 | precut | 75 | 168 |
| long term survival | 133 | preoperative diagnosis | 263 | T |
| long-term outcome | 11 | previous upper abdominal surgery | | TG18 |
| long-term survival | 279 | | | torsion of the gallbladder |
| M | | | | transarterial embolization |
| malignant biliary obstruction | 712 | primary sclerosing cholangitis | 31 | transcatheter arterial embolization |
| | | prognostic factor | 59, 223 | 899 |
| | | proton beam therapy | 776 | U |
| | | pseudoaneurysm | 776 | ultrasound |
| | | pseudolithiasis | 870 | upfront surgery |
| | | PTBD | 733, 891 | V |
| | | PTGBD | 100 | Vater |
