

## Key Words

<b>A</b>		carcinoma of the bile duct	747	<b>E</b>	
abdominal abscess	180	cavernous transformation	108	EBD	243, 920
abdominal residual gall stone	180	chemotherapy	162, 771, 853	EGBS	639
aberrant hepatic duct	236	cholangiocarcinoma	920	elevated gallbladder lesions	152
acute cholecystitis	39, 647	cholangitis	231	endoscopic biliary drainage	656
acute pancreatitis	882	cholecystectomy	903	endoscopic gallbladder stenting	639
adenomatous hyperplasia	174	cholecystitis	639	endoscopic naso-pancreatic drainage	
adenomyomatosis	95, 187	cholecystolithiasis	889, 896		204
adenomyomatosis of the gallbladder	174	cholechocele	193	endoscopic retrograde	
adenomyomatous hyperplasia	95	choledochoduodenostomy	912	cholangiopancreatography	820
adenosquamous carcinoma	925	cholechojejunostomy stenosis	709	endoscopic sphincterotomy (EST)	
<b>B</b>		choledocholithiasis	820, 896		847
bailout procedures	39	cholelithiasis	236	endoscopic ultrasonography	121
band-like stricture	256	colorectal biliary metastasis	701	endoscopic ultrasound-guided biliary	
beaded-appearance	256	colorectal cancer	222	drainage	88, 709
bile duct	213, 931	colorectal liver metastasis	860	endoscopic ultrasound/endosonogra-	
bile duct cancer	32, 67, 127, 137, 243, 662, 870	comet-like echo	174	phy guided-biliary drainage	656
bile duct metastasis	877	congenital biliary dilatation	20, 912	ERCP	47, 243, 931
bile duct resection	882	congenital biliary dilation	882	ETGBD	639
bile duct stenosis	108	congenital morphological abnormality		EUS	32, 75, 243, 250, 931
bile duct stricture	114	of the bile duct	732	EUS-BD	88, 243, 656, 920
bile duct varices	108	contrast-enhanced CT	121	EUS-FNA	717
bile leakage	903	contrast-enhanced ultrasonography	121	EUS-GBD	647
biliary drainage	127, 789, 920	conversion surgery	771, 853	extrahepatic cholangiocarcinoma	
biliary intraepithelial neoplasia (BilIN)	780	CT imaging	627		693
biliary invasion	860	curvilinear-array endoscopic		extrahepatic portal venous	
biliary obstruction	88, 656	ultrasonography	75	obstruction	108
biliary stent	903	cystic duct	75	<b>F</b>	
biliary tract	162	cystic vein	740	fibrin adhesive	847
biliary tract cancer	13, 671, 789, 827	<b>D</b>		forward-viewing echoendoscope	709
biliary tract carcinoma	724	diagnosis	213	<b>G</b>	
biloma	860	diagnosis for extension	627	gallbladder cancer	32, 137, 740, 853
<b>C</b>		distal biliary obstruction	827	gallbladder carcinoma	95, 121
cancer of the Ampulla of Vater	32	double cancer	137	gallbladder cyst	187
cannulation	47	double cancer of the biliary tract	137	gallbladder metastasis	686
carcinoma	75	double common bile duct	732	gallbladder stone	121
carcinoma of the ampulla of Vater	870	double-balloon endoscope	709, 820	gastric subtype	808
		drainage	639	genomic testing	671
		duct of Luschka	792	<b>H</b>	
				hemorrhage after EST	847

hemostatic technique	847	laparoscopic cholecystectomy	39, 180, 236, 896	papillary cholangiocarcinoma	250
hepatectomy	144, 789	liver metastasis of cecal cancer	114	papillary neoplasm	724
hepatic metastasis	853	liver remnant function	144	pathogenesis	20
hepatomesenteric trunk	747	local recurrence	860	pathological findings	627
hilar cholangiocarcinoma	780	localized liver metastasis	740	pathology	95, 839
hypopharyngeal cancer	686	locally advanced gallbladder cancer	771	pearl necklace sign	174
<b>I</b>		long-term survival	740	perforation of the common bile duct	199
IDUS	32	longitudinal extension	67	peribiliary gland	870
IgG4-related sclerosing cholangitis	839	Longmire's operation	102	perihilar bile duct	925
imaging diagnosis	925	<b>M</b>		perihilar cholangiocarcinoma	144, 204
immune-related adverse events	231	malignant biliary obstruction	920	perihilar colangiocarcinoma	627
immunosuppressive agents	231	mapping biopsy	144	peroral cholangioscopy	250, 256
immunotherapy	671	MDCT	627	POCS	131
inflammatory pseudotumor	679	minor duodenal papilla	763	Polyglycolic Acid Sheet	847
interventional EUS	88, 656	molecular targeted therapy	671	postoperative pancreatic fistula	204
intestinal subtype	808	mucin production	662	precision medicine	671
intra-biliary tumor thrombi	222	mucinous	757	pre-malignant lesion	662
intra-biliary growth	701	multiple primary cancer	693	preoperative biliary drainage	827
intra-biliary tumor thrombus	701	multiseptate gallbladder	889	preoperative evaluation	250
intraductal papillary neoplasm of bile duct	757, 808	<b>N</b>		primary sclerosing cholangitis	256, 839
intraductal papillary neoplasm of the bile duct	662	national biliary tract cancer registry	13	PTGBD	647
intraductal papillary neoplasm of the bile duct (IPNB)	732	NEC	213	<b>R</b>	
intraepithelial neoplasm	662	necrotizing cholecystitis	903	Rokitansky-Aschoff sinus	95, 174, 187
intrahepatic cholangiocarcinoma	114, 222, 679, 693, 877	neoadjuvant therapy	827	<b>S</b>	
intrahepatic choledocholithiasis	102	neoplasm	75	schwannoma	931
intramural cystic lesion of the gallbladder	187	neuroendocrine carcinoma	162	sclerosing cholangitis	839
intraoperative cholangiography	193	neuroendocrine neoplasm	162	secondary sclerosing cholangitis	839
invasive adenocarcinoma	757	neuroendocrine tumor	213, 763	secondary tumor of the pancreas	717
IPNB	131, 250	<b>O</b>		selective bile duct cannulation	47
<b>J</b>		obstructive jaundice	13, 88, 127, 717, 789	siblings	724
Japan Biliary Association	13	oncocytic subtype	808	sigmoid colon cancer	877
juvenile cholangiocarcinoma	780	open conversion	39	single port laparoscopic surgery	180
<b>K</b>		<b>P</b>		somatostatin analogue	896
KOEDA	647	pancreatic cancer	827	SpyGlass DS	67
<b>L</b>		pancreaticobiliary maljunction	20, 137, 193, 204, 732, 780, 882	subepithelial lesion	931
lanreotide	896	pancreatobiliary subtype	808	subtotal cholecystectomy	39
		pancreatoduodenectomy	747, 763	subvesical bile ducts	792
				surgically altered anatomy	820

synchronous multiple bile duct cancer				
	912			
		<b>T</b>		
three-dimensional ultrasound	152			
transabdominal ultrasound	152			
traumatic biliary stenosis	102			
treatment	20, 213			
			<b>U</b>	
		ulcerative colitis	256	
		uterine leiomyosarcoma	717	
				<b>X</b>
				xanthogranulomatous cholecystitis
				889
		<b>W</b>		
		WHO classification	162	
		without dilation of bile duct	882
