

Key Words

A		cholelithiasis	178	fluorescence cholangiography	178
acalculous cholecystitis	701	cholescintigraphy	641	follicular lymphoma	735
accessory hepatic duct	178	clinical epidemiology	718	G	
acute cholangitis	183, 218, 718	clinical practice guidelines for acute		gallbladder	735
acute cholecystitis	616, 692	cholangitis and cholecystitis	183	gallbladder adenocarcinoma	170
adjuvant chemotherapy	152	clinicopathological research	18	gallbladder adenoma	774
ampullary cancer	189	coil embolization	742	gallbladder cancer	130, 647
anastomosis	674	common bile duct stone	141, 183	gallbladder carcinoma	655
anastomotic stricture	57	common bile duct stones	749	gallbladder dyskinesia	641
atezolizumab	218	community medicine	701	gut liver axis	84
B		complete response	647	gut microbiota	84
bile duct blood flow	762	complications	214	H	
bile duct injury	762	contrast assisted cannulation	204	heavy particle therapy	32
bile duct intramural cyst	117	conversion surgery	152	hemobilia	634
bile duct perforation	749	cystic duct	69	hepatic venous fistula	742
bile duct stones	57	D		<i>HER2</i> gene alteration	75
bile leakage	90	data science	718	high confluence of pancreatobiliary	
biliary cancer	162	difficult biliary cannulation	204	ducts	97
biliary diseases	718	duodenal papillary perforation	658	I	
biliary drainage	183	E		ICI related cholangitis	218
biliary duct-to-duct		EBD	214	IDUS	24
reconstruction	57	elderly patients	141	IgG4	726
biliary peritonitis	124	electrohydraulic shock wave		incidental gallbladder carcinoma	114
biliary stenosis	768	lithotripsy	749	inside stent	634
biliary stent	141	endoscopic gallbladder drainage	616	intracholecystic papillary neoplasm	
biliary stricture	710	endoscopic papillary		(ICPN)	130
biliary tract cancer	18, 75, 189, 718	sphincterotomy	658	intrahepatic	
C		endoscopic retrograde cholangiopan-		cholangiocarcinoma	32, 607
cancer genomes	75	creatography ERCP	204	intraoperative biliary endoscopy	658
cancer genomic profiling tests	607	endoscopic ultrasonography	214	IPNB	97
carcinoma in adenoma	774	ERC (Endoscopic retrograde		isolated	726
carcinoma in situ	681	cholangiography)	57	K	
carcinoma of the ampulla of Vater		ERCP	24, 107, 214, 625, 710	Kuji's type V	178
	198	ETGBD	616	L	
catheter dislocation	124	EUS	218, 710	laparoscopic cholecystectomy	692
chemotherapy	189, 647	EUS-BD	214, 625	large cell neuroendocrine	
cholangiocarcinoma	681	EUS-GBD	616, 752	carcinoma	198
cholangioscopy	117, 710	EUS-rendezvous (EUS-RV)	661	large duct carcinoma	607
cholangitis	107, 674	extensive intraepithelial spread	681	leaky gut	84
cholecystectomy	178	F			
cholecystitis	69, 726	<i>FGFR2</i> fusion gene	75		

lithiasis	674	percutaneous transhepatic biliary	resection margin	681	
liver transplantation	57	drainage	124	rotatable sphincterotome	201
local injection	90	percutaneous transhepatic gallblad	roux-en-Y	674	
lymph node metastasis	18	der drainage (PTGBD)	692	Roux-en-Y reconstruction	201
M		periampullary diverticula	201	S	
		perihilar cholangiocarcinoma			
malignant biliary strictures	634	24, 32, 742, 768	sclerosing cholangitis	218	
malignant distal biliary obstruction		peritoneal seeding	768	selective bile duct cannulation	201
	625	peroral cholangioscopy	749	SEMS	625
malignant lymphoma	735	peroral cholangioscopy (POCS)	681	signet ring cell carcinoma	655
mapping biopsy	24	PET	768	signet-ring cell carcinoma	170
minocycline	90	PGA	774	skeletal muscle metastasis	170
monozygotic twins	102	photodynamic therapy	162	small duct carcinoma	607
mucinous carcinoma	114	photosensitivity	162	sphincter of Oddi dysfunction	641
multidisciplinary treatment	18	photosensitizer	162	Spiegel lobe	90
N		plastic stent	634	stent graft	742
		poorly-differentiated carcinoma	768	stent-stone complex (SSC)	141
NEC	198	postoperative complications	674	strasberg classification	762
neoadjuvant chemotherapy	152	postoperative recurrence	189	T	
neuroendocrine carcinoma	647	precision medicine	75		
neuroendocrine tumor	647	pregnancy	107	T2 gallbladder cancer	114
non-operative treatment	701	preoperative biliary drainage	625	TAE	752
O		primary biliary cholangitis	84	therapeutic course	701
		primary sclerosing cholangitis	84	timing of the surgery	692
obstructive jaundice	124	proton therapy	32	Tokyo Guidelines	183
operative difficulty	692	pseudoaneurysm	634, 752	transpapillary biopsy	24
P		pyloric gland adenoma	774	transpapillary cyst fenestration	117
		R		U	
pancreatic stone formed around					
suture material	754	R0 resection	18	uneven double lumen cannula	
pancreaticobiliary maljunction		radiotherapy	32, 189	(UDLC)	661
	102, 754	recurrence	69	V	
pancreaticoduodenectomy	90	remnant intrapancreatic chledochal			
para-aortic lymph node metastasis		cysts	754	vascular injury	124
	655	resectability criteria for bile duct			
pCLE	710	cancers	152
